

VICTIM SERVICES

Were your STOP Program funds used to provide victim services?

Check yes if STOP Program-funded staff provided victim services or if STOP Program funds were used to support victim services during the current reporting period. Report all victims/survivors served, and victim services provided with STOP Program funds, whether by a victim services agency or victim services within law enforcement, prosecution, or the court system in this section. 25. Number of primary victims/survivors served, partially served, and victims/survivors seeking services who were not served

Please do not answer this question without referring to the separate instructions for further explanation and examples of how to distinguish among these categories. (Report the following, to the best of your ability, as an unduplicated count for each category during the current reporting period. This means that each victim/survivor who was seeking or who received services during the current reporting period should be counted only once in that reporting period. For purposes of this question, victims/survivors are those against whom the sexual assault, domestic violence, dating violence, and/or stalking was directed. If the victim/survivor experienced more than one victimization, that person should be counted only once under the primary victimization. Do not report secondary victims here.)

26. Number of secondary victims served

Please do not answer this question without referring to the separate instructions for further explanation and for examples of how and when to report secondary victims. (Report the following, to the best of your ability, as an unduplicated count for each category during the current reporting period. This means that each secondary victim who received services during the current reporting period should be counted only once and in only one of the listed categories, which should correspond to the category of victimization of the primary victim/survivor. For purposes of this question, secondary victims are those who are indirectly affected by the domestic violence/dating violence, sexual assault, and/or stalking—i.e., children, siblings, spouses or intimate partners, grandparents, other affected relatives, friends, neighbors, etc.)

28. Demographics of primary victims/survivors served or partially served

(Based on the primary victims/survivors reported in 25A and 25B, report the total numbers for all that apply. Because victims/survivors may identify in more than one category of race/ethnicity, the total for "Race/ethnicity" may exceed the total number of victims/survivors reported in 25A and 25B. However, the total number of victims/survivors reported under "Race/ethnicity" should not be less than the total number of victims/survivors reported in 25A and 25B. The total number of victims/survivors reported under "Gender" and the total number reported under "Age" should equal the total number of victims/survivors reported in 25A and 25B. (Report the number of primary victims/survivors from 25A and 25B who received STOP Program-funded services. Count each victim/survivor only once for each type of service that victim received during the current reporting period; do not report the number of times that service was provided to the victim. The total for each type of service should not be higher than the total of 25A and 25B [insert total of 25 A and 25 B.]. Shelter services should be reported in Question 30B. 30B. Shelter services

(Report the number of victims/survivors and accompanying family members who received emergency shelter and/or transitional housing provided with STOP Program funds during the current reporting period. This should be an unduplicated count for both victims/survivors and for family members. This means that each victim/survivor and each family member who received shelter services during the current reporting period should be counted only once. Report the total number of bed nights provided in emergency shelter and/or transitional housing to victims/survivors and family members. The number of bed nights is computed by multiplying the number of victims and family members by the number of nights they stayed in the shelter. The number of bed nights will typically be significantly higher than the number of victims and family members. For example, one victim and her three children all stayed in the shelter for 10 nights. The number of bed nights would be 4 x 10, or 40.)

Primary victims whose calls are reported here should not be reported as victims served in question 25 unless they also received at least one of the services listed in question 30A Victim Services or question 30B Shelter Services. Victims/survivors who receive services such as crisis intervention or victim advocacy over the telephone, in addition to basic hotline information and/or referrals, should also be reported in question 30A. Hotline calls that include victim advocacy or crisis intervention services are those that require more time than the average call and involve a more intensive focus on the immediate needs and situation of the victim. For examples of when to report only the hotline call and when to report both the hotline call and a service or services in question 30A, see separate instructions.)

32. (Optional) Additional information

(Use the space below to discuss the effectiveness of victim services funded or supported by your STOP Program subgrant and to provide any additional information you would like to share about your victim services activities beyond what you have provided in the data above. An example might include that your agency, as a result of STOP Program-funding, was able to provide medical accompaniment to an increased percentage of sexual assault survivors. This resulted in a higher percentage of victims/survivors seeking additional support services.) *(Maximum 2000 characters)*
